

MINOR INCIDENTS

Per IDAPA 16.03.19.270.04.a and 270.04.d, the provider must maintain records of any incident or accident involving the resident, and changes in the resident's physical, behavioral, or mental status, including changes that warrant usage of PRN medications.

This form is for less serious events. If any of the following events occur involving the resident, complete the Critical Incident Report and submit it to the department: elopement, death, hospitalization, visit to an emergency room or urgent care clinic, and/or law enforcement or adult protection investigation.
